

Biotabs Product Sheet

Biotabs

Slow release organic fertilizer tablets NPK : 15-7-8

21 gram tablets.

Available in packages of 10, 100 or 400 tablets.

Biotabs are slow release organic fertilizer tablets for annual plants.

No more danger of dosing too much or too little fertilizer. Your plants will have exactly the right dosage of organic fertilizers at any time. There is no need to adjust the PH or EC when using Biotabs.

Biotabs make your life easy. organic cultivation becomes child's play for beginners and advanced growers alike, you only need to water your plants.

Biotabs contain everything your plants need to keep them deep green throughout the entire cycle. Even very long-blooming plants will remain deep green throughout the full cycle. Biotabs effortlessly feeds your plants in their growing and flowering cycle. The result are healthy plants who will grow and bloom exuberantly. Biotabs organic fertilizer tablets contain all the important minerals in combination with nitrogen-binding and phosphate-dissolving bacteria and organic substances for the healthy growth of potted plants.

The tablets contain a formula of slow-acting nitrogen, natural humic acids and beneficial soil bacteria. These improve the soil and contribute to the good uptake of the fertilizers, resulting in uniformly healthy growth without leaching of the fertilizers. The unique combination of fertilizers and soil bacteria ensure healthy growth and healthy soil.

At Biotabs.NL, we have 30 years of experience growing plants and we can guarantee that the results obtained with Biotabs are unprecedented. You will never want to use anything else again. Biotabs fertilizer tablets are organic.

Biotabs contain bone meal, blood meal, feather meal, fish meal, natural humic acid, beneficial soil bacteria and a formula of slow-acting nitrogen
